PRISTING

MTO LEASE

#### DESCRIPTION

An area retaining an intrinsically wild appearance and character, which is undeveloped and has no roads, is without permanent improvements or human habitation and provides outstanting apportunities for solutiole. Currently designated or plannes for designation as Villetimes in team of Protected Areas At with the mart Stream. Nanaged to protect and martian natural and cultural resources bloodwently and the provision of environmental pools and services. Limited management interventions, applied using "tead lightly" protection. Rest Contract Current, using a server not cell the Athibites include Ning on ro-defined outes, it watching, research and a services. Athibites and the attick and the Athibites include Ning on ro-defined outes, it watching, research and the attick and the attick and attick attick and the Athibites include Ning attick a

Ana proving a predominantly wild character and Wildsness' processes that an activate initiate hilling on no-defined routes, bit watching research. Ana proving a predominantly wild character and Wildsness' processes build ean company with orters for bit all explands and Wildeness. Human impacts, infratorubure at a reare in the zone but are valide from certain antage post. Management needs to impace the impacts to include the zone to prove board infratorubus de savaing building of cubical visit accesses the based within the processes of the savaing of the savaing and the savaing building of cubical visit access only for citation intervention.

Similar to Renote Zone in test is a preformantly isotetate and wild area. Du with greater fascibility with regard to infrastruture (basic hines huks) and similary controlled 4/4 whoreas access. All infrastruture designed to have minimum impaction on the wilderness character of the area. Restricted user numbers and group size. Activities include 44s routes, horse talls, hining talls, mountain bike trails. Maragement access to have regular in cost to minigate negative impact of burst activities.

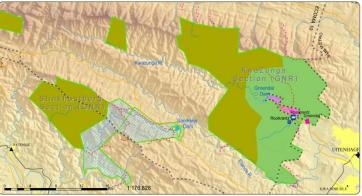

The Zone provides an outdoor recentation environment in a natural, suite tating with rome interaction heterers proups and a indicate sense of location. The scoress to the Zone high score provides and score and the activities and non-indicate Activities include hone trails, hinking on designated trails, mountanible tatis, kloofing, adventure sports, kayaking, bird waching. Limited and semitively depend accommodation and outroim infrastructure provided. Rodat use for management purposes only. QUIET

This Zone provides for a range of recreational activities (intotrised and non-motorised) in a landscape that is able to handle greater numbers of visitors and popus. Interaction between groups is part of the experience. Limited sensitive basis infrastructure for accessfully and enjoyment of the asks, and only infinical sympathol development inflacts for exection future and anargament of the server. A sensitive service of the server activities including promising valency mountainflacts, buysteing, game viewing, hinting and adverture accesses. Block more accessing valence was easily the service solution facilities, provides the server activities and analyzes of the server activities accesses. High management presence essential. LOW INTENSIT

Special Zone : Privately owned land that is completely surrounded by the nature reserve. Agreements between owner and ECPB essential in order to mitigate impacts on the Reserve and effectively manage access, fire and wildlife.

Special Zone : Area around the Kouga dam wall which is managed by the Gamtoos irrigation board on behalf of DWAF. Formulation of agreements between GI and ECPB in progress to manage access and tourism activities. DAM WALL

Special Zone : MTO lease areas which are adjacent to the nature reserves and are managed as mountain catchments. Co-management agreements between MTO and ECPB essential for effective fire and wildlife management.

## **BAVIAANS & BUFFALOKLOOF**

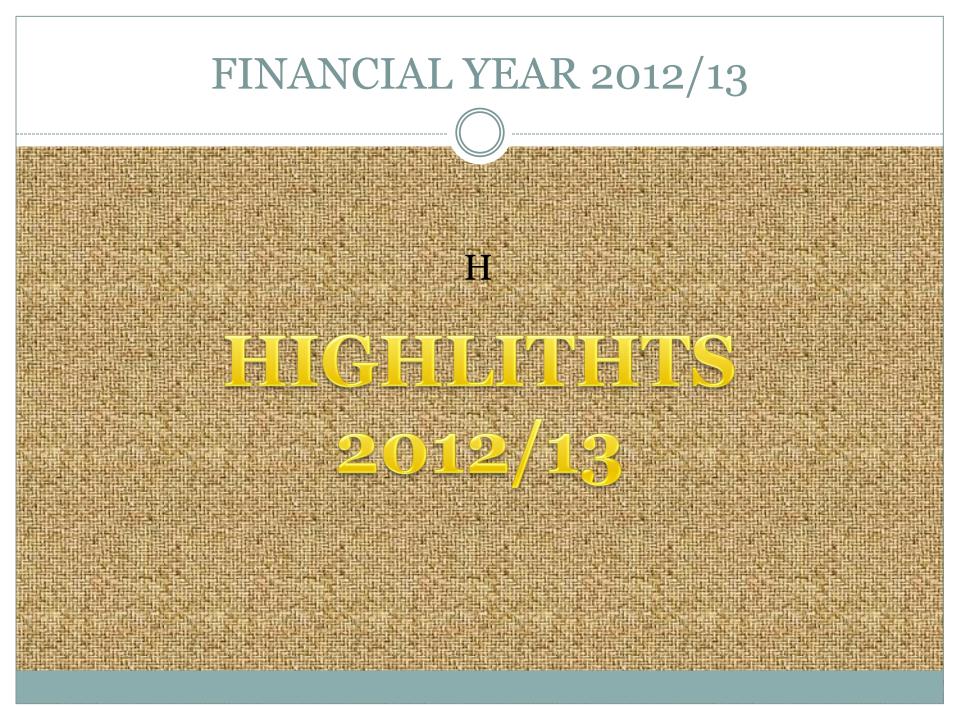

# CHALLENGES

- FUNDING & INSUFFICIENT RESOUCES
- PRIORITIZATION MODELS: WILDERNESS/LANDSCAPE VS BIG 5
- FULL IMPLIMENTATION OF LANDSCAPE SCALE CONSERVATION PLANING
- LACK OF SUPPORT FOR CONSERVATION EFFORTS OUTSIDE PA'S
- LAND CLEARING, MINING, PROSPECTING, IAP'S, MONITORING OF RESOURCE USE PERMITS, WASTE MANAGEMENT
- LACK OF RIPARIAN ZONE CONSERVATION

# **OPPORTUNITIES**

- LANDSCAPE SCALE CONSERVATION PLANNING INSIDE & OUTSIDE PA'S
- STEWARDSHIP PROGRAM GUIDE & SUPPORT SUSTAINABLE LAND USE PRACTISE
- 10 KM WORLD HERITAGE SITE BUFFER
- SEA PROCESS TO GUIDE TDP I.E SENSITIVITY MAPS
- MAXIMISE RECOGNITION & SUPPORT OF CONSERVATION EFFORTS BY PRIVATE LAND OWNERS
- TDP LINKEGES TO EXTERNAL TOURISM ROUTES & INITIATIVES

#### **SECURED ANNUAL PROGRAMS & OPERATIONS**

#### PROGRESS 2012/13

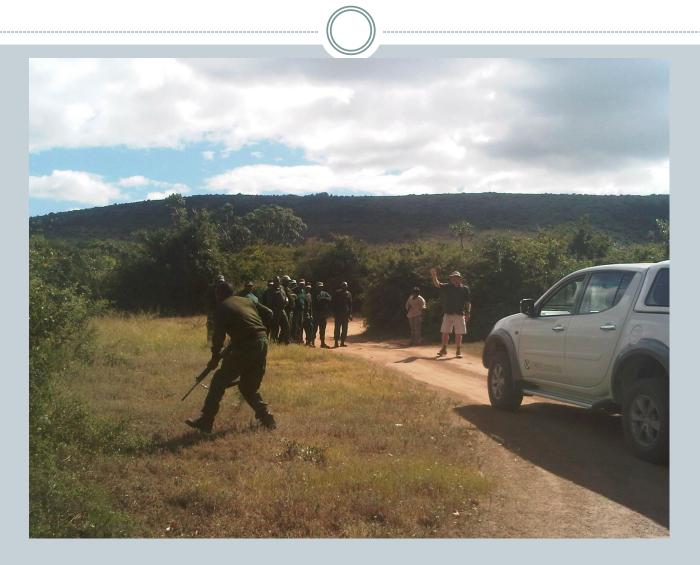

- ✤ FULL IMPLIMENTATION OF AOP 2012/13
- ✤ COMPLIMENTED BY 9,5 MILLION INFRASTRUCTURE PROJECTS
- ✤ FUNDED GAME MANAGEMENT PROGRAM INCL CAPTURE
- ✤ WOF & FIRE MANAGEMENT PROGRAM
- ✤ WFW HAT PROGRAM
- TRAINING OF STAFF
- ♦ GIB'S WFW & ROAD MAINTAINANCE PROGRAM
- RESEARCH PRIORITY PLANS, & ACTIVE RESEARCH INCLUDING UNIVERSITIES RESEARCH PROJECTS
  - DUNG ANALYSIS, CPF LOCUST STUDY, VEGETATION MAPPING FIXED TRANSECTS EUSTON BROWN, CMZ HABITAT ASSEMENT,
- PRESENCE PROGRAM & BAVIAANKLOOF RESEARCH FEEBACK
   WORKSHOPS ANNUALLY
